Testimonials:

MytJprep is an amazing institution with great team of educators. It helped my daughter greatly preparing for the TJ exam and getting this far in the admission process.

-Arun B Bhandari

"Overall the classes helped amplify an existing intelligence level, diligence and hard work. Classes helped increase test taking speed by helping my son understand what the questions were asking, then understand the short cut method of solving. The final 8 simulated test taking sessions really identified where the weaknesses were and allowed time to improve in the areas.

-Neil Matias

MyTJ prep was the best choice for our daughter. Teachers are professionals, well prepared, helping and motivational. Course structure was streamlined and communication every week about the child's progress was excellent and kept the parents on the loop effectively. We were impressed with the course structure. Our sincere thanks and gratitude to the entire team. **-Lopa Pattnaik**
